

## Pull up diapers

### Product description

**EURON MOBI** is a range of pull up diapers, suitable for people with moderate to heavy incontinence. This pad is very soft and comfortable. The **EURON MOBI** range is easy to use and feels like conventional underwear. **EURON MOBI** can be used whilst following a toileting programme and encourages continence promotion.

### Features and benefits

- The acquisition and transfer layer provides a fast absorption and optimises the effectiveness of the fluff layer.
- The double absorption core (Hybatex™), containing Super Absorbent Powder (SAP), ensures urine is rapidly absorbed and distributed. The urine is transformed into gel, keeping the skin feeling dry.
- Active ODS® (Odour Dry System) helps to prevent the formation of ammonia and unpleasant odours. This helps to protect the skin and to reduce the risk of redness or skin irritations.
- The anti-leak cuffs prevent leakage of urine and faeces.
- The wetness indicator disappears when in contact with urine.
- Soft Cotton Feel gives the look of conventional underwear. This ensures maximum discretion and comfort.
- The absorbency of the **EURON MOBI** is indicated both on the pad and on the packaging by means of the "Quick Absorption Scale™".
