

Belt diapers

Product description

EURON WINGS is an all-in-one pad with belt. Its unique shape enables end users to put the pads on by themselves, thereby promoting user independence. This latest generation of incontinence pads has been specially developed for moderate to very heavy incontinence.

Features and benefits

- The belt is made of a soft, breathable material and is provided with a velcro fastener. It can be simply adjusted until it fits perfectly.
- The specific shape of the **EURON WINGS** leaves the hips free, resulting in a lighter and more pleasant feeling.
- The double absorption core (Hybatex™), containing Super Absorbent Powder (SAP), ensures urine is rapidly absorbed and distributed. The urine is transformed into gel, keeping the skin feeling dry.
- Active ODS® (Odour Dry System) helps to prevent the formation of ammonia and unpleasant odours. This helps to protect the skin and to reduce the risk of redness or skin irritations.
- The anatomically shaped side elastics and the integrated anti-leak cuffs ensure a double security against side leakage.
- The double wetness indicator gives a clear indication of the saturation of the pad.
- The outer layer of the **EURON WINGS** consists of a white, soft non-woven, which provides increased comfort and discretion.
- The different absorbencies of the **EURON WINGS** can easily be identified by the colour coding and the use of the "Quick Absorption Scale™".
